To: Allenstown Sewer Users  
From: Sewer Superintendent  
Date: October 27, 2025  
Re: **Notice of Sewer Rate Increases**

This notice is to inform our valued customers of upcoming increases in sewer service rates. The new rates will take effect beginning **the 1st quarter of 2026**, and customers will see these changes reflected on their **1st quarter sewer bills**, which will be issued in **April 2026**.

The revised fee schedule is based on the Sewer Commission's cost to provide sewer collection and wastewater treatment services for the Town of Allenstown. The current and new 2026 sewer rates are summarized below. The new rates represent an average **3% increase**.

<b>Current Sewer Rates</b>	<b>2026 Sewer Rates</b>
<b>Service Charges:</b>	<b>Service Charges:</b>
Residential: \$3.00	Residential: \$3.09
Commercial: \$10.00	Commercial: \$10.30
Industrial: \$14.00	Industrial: \$14.42
<b>Use Charges:</b>	<b>Use Charges:</b>
\$8.06/1000 Gallons	\$8.30/1000 Gallons

**Service charges** are fees charged regardless of use quantities. Service charges are classified into three categories: Commercial User, Industrial User, or Residential User. In the case of structures containing more than one customer unit, a separate service charge is payable for each customer unit (examples of Commercial Users are businesses, restaurants, mobile home parks, condo associations, and multi-family units consisting of more than three units).

**Use Charges** are based upon water consumption on the premises connected with the sewer system. In the event that a user does not have a water meter; a flat rate fee will apply based on 225 gallons per day.
